IMPORTANT INFORMATION – PLEASE READ CAREFULLY

The purpose of a Workplace Safety Program inspection is solely to determine if the participating business qualifies for the Delaware Workplace Safety Program insurance premium discount. Conditions considered include, but are not limited to, the following: an effective health and safety program, adequate and effective employee training, identification and elimination of potential hazardous conditions, and three years of workplace injury data. Although the inspector might cite Occupational Safety & Health (OSHA) standards, other regulations or guidelines, the Delaware Workplace Safety Program is not the same as an OSHA inspection. The purpose is not to determine compliance with OSHA or any other safety regulations or standards of care; it is simply to determine whether the health and the safety of employees are an important part of businesses participating in the program and that hazards are routinely and regularly identified and corrected.

No liability or responsibility is assumed by the person or entity preparing the report or performing the inspection, for any injuries to employees, subcontractors or other persons injured at the businesses participating in the Delaware Workplace Safety Program. It remains the sole responsibility of the participating business to assure their premises are safe for their employees, subcontractors and all other persons at their businesses and facilities. No contractual relationship exists between the parties performing the inspections and preparing the reports and the participating businesses, their employees, subcontractors and all other persons on their premises.

The new requirements of House Bill 175 regarding the Workplace Safety Program now take effect. In addition to hazard recognition observations based on the physical walk through of your workplace and abatement of previously made recommendations, where applicable, three years of workplace injury data will now also be considered when determining if you will be awarded the Workplace Safety Program Credit. For compliance, please ensure all information is filled out completely and accurately.
