SCOPE OF EXAMINATION

The Market Conduct Examination was conducted pursuant to the authority granted by 18 Del. C. §318-322 and covered the experience period of January 1, 2014 through January 31, 2016 unless otherwise noted. The purpose of the examination was to determine the Company’s compliance with Delaware insurance laws and regulations related to the health insurance market place.

METHODOLOGY

This examination was performed in accordance with Market Regulation standards established by the Department and examination procedures suggested by the NAIC. While the examiners’ report on the errors found in individual files, the examination also focuses on general business practices of the Company.

The Company identified the universe of files for each segment of the review. Based on the universe sizes identified, a random sample of files was selected and reviewed for this examination.

Delaware Market Conduct Examination Reports generally note only those items to which the Department, after review, takes exception. An exception is any instance of Company activity that does not comply with an insurance statute or regulation. Exceptions contained in the Report may result in imposition of penalties. Generally, practices, procedures, or files that are reviewed by Department examiners during the course of an examination may not be referred to in the Report if no improprieties were noted. However, the Examination Report may include management recommendations addressing areas of concern noted by the Department, but for which no statutory violation is identified. This enables Company management to review these areas of concern in order to determine the potential impact upon Company operations or future compliance.
COMPANY HISTORY

Companion Life Insurance Company (“CLife”) was incorporated on June 2, 1970, as a South Carolina corporation and a South Carolina domestic insurer, and is currently licensed in forty-six (46) states and the District of Columbia with NAIC Company Code 77828. It is 100% owned by Blue Cross and Blue Shield of South Carolina and subject to the South Carolina Insurance Holding Company Regulatory Act. All employees are Blue Cross employees assigned to Companion Life through an allocation agreement between the parties. A life, accident and health insurance carrier, CLife was formed for the purpose of offering nationally two (2) product lines categorized as the core products line and the specialty products line.

The core product line includes employer group insurance products designed to complement an employer’s group health benefit plan issued by other carriers. These core products include both employer group term life insurance and employer group health insurance products. In the marketplace, these coverages are generally referred to as “ancillary plans”.

CLife currently maintains nine (9) regional markets each with directors who are direct employees with the responsibilities of recruiting and contracting with general agents and regional health plans in the designated marketing regions. These general agents and health plans, in turn, make CLife’s core portfolio available to independent producers marketing employer group health insurance in the small and large group market. This successful model has allowed CLife to develop a vast network of general agents, health plans, and independent insurance producers to bring CLife’s core programs to market.

CLife’s specialty products include employer medical excess of loss (stop loss) coverage, group non-coordinated limited benefit health paying fixed indemnity, blanket student medical, short-term medical, association group limited benefit health, employer group critical illness insurance, and group prescription supplemental coverage. CLife no longer underwrites small group health insurance or individual association health benefit plans, and is in a final run-off period for these programs.

Based upon 2014 year-end data, on a net premium basis, total group health insurance constitutes approximately 95% of CLife’s business, and 90% on a gross premium basis.

CLife’s core products include employer group term life insurance, employer group short-term disability insurance, employer group long term disability insurance, employer group dental insurance, and employer group vision insurance. These coverages require employer contributions and minimum participation levels are enforced. These coverages are also available on a voluntary basis whereby the insured employee contributes the majority, if not all, of the premium through payroll deduction. In this instance, coverage could include the use of a cafeteria plan.

CLife contracts with a network of managing general underwriters to manage its portfolio of stop-loss insurance.
