EXECUTIVE SUMMARY

CHCDE (the "Company") incorporated in the State of Delaware on May 29, 1985, and commenced business on November 17, 1986.

According to their December 31, 2010, annual statement filed with the Department, CHCDE reported health premiums earned for group health insurance business in Delaware in the amount of $99,090,684. The Company’s main administrative offices are located in Newark, Delaware.

The purpose of the examination was to ensure compliance with Delaware statutes and regulations regarding the Company’s disclosure and premium rating process in the small employer health insurance market.

The focus of the review included the following:

- The use of proper disclosures in the sales and marketing of small employer health insurance as required by 18 Del. C. §7217.
- The proper filing and approval of the Company’s rating methodology and rate manual with the Department as required by 18 Del. Admin Code 1308 §6.0.
- The application of the approved rating methodology as filed with the Department to ensure the rates charged were not excessive and outside the rate deviation allowable under 18 Del. C §7205 and Del. Admin. Code 1308 §6.0.

One exception was noted to 18 Del. Admin Code 1308 §6.1.2.1 for the application of an area rating factor in one file that was not filed and approved.

No exceptions were noted in the other areas of operation reviewed.

SCOPE OF EXAMINATION

The Market Conduct Examination was conducted pursuant to the authority granted by 18 Del. C. §§318-322 and covered the experience period of January 1, 2010 through December 31, 2010. The purpose of the examination was to determine compliance by the Company with Delaware insurance laws and regulations related to the premium rating process and disclosures in the small employer health insurance market.

The examination focused on the following areas of operation in the Company’s small employer health insurance business: Sales and Marketing, Rating and Rating Methodology and Consumer Complaint Handling.
METHODOLOGY

This examination was performed in accordance with Market Regulation standards established by the Department and examination procedures suggested by the NAIC. While the examiners’ report on the errors found in individual files, the examination also focuses on general business practices of the Company.

The Company was requested to provide a list of each class of health insurance business the Company marketed in Delaware for the period from January 1, 2010 to December 31, 2010. Based on the universe size identified, all first and second quarter policy issued files were selected and reviewed for this examination.

Delaware Market Conduct Examination Reports generally note only those items, to which the Department, after review, takes exception. An exception is any instance of Company activity that does not comply with an insurance statute or regulation. Exceptions contained in the Report may result in imposition of penalties. Generally, practices, procedures, or files that were reviewed by Department examiners during the course of an examination may not be referred to in the Report if no improprieties were noted. However, the Examination Report may include management recommendations addressing areas of concern noted by the Department, but for which no statutory violation was identified. This enables Company management to review these areas of concern in order to determine the potential impact upon Company operations or future compliance.

Throughout the course of the examination, Company officials were provided status memoranda of each section of the review. Additional information was requested to clarify apparent exceptions and/or concerns. An exit conference was conducted with Company officials to discuss the results of the review.
