Statement of Actuarial Opinion

Statement of Actuarial Opinion
Highmark Inc.

I, Mark F. St. George, am a Director with the firm of PricewaterhouseCoopers LLP. I am a Fellow of the Society of Actuaries and also a Member of the American Academy of Actuaries. I have been retained by Highmark Inc. (the Corporation) to render this opinion. I meet the American Academy of Actuaries Qualification Standards for rendering this opinion and am familiar with the valuation requirements applicable to life and health insurance companies.

I have examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items listed below, as shown in the Annual Statement of the Corporation, as prepared for filing with the state regulatory officials as of December 31, 2008. Those reserves and related actuarial items which have been subjected to asset adequacy analysis are tabulated as shown in the following table of Reserves and Liabilities.

A. Claims Unpaid (Reported and Unreported):	$ 487,050,986
B. Accrued medical incentive pool and bonus payments:	$ 9,488,000
C. Unpaid claims adjustment expenses:	$ 12,259,262
D. Other policy and contract reserves:	$ 226,401,916
E. Experience rated refunds:	$ 0
F. Any actuarial liabilities included in “Aggregate write-ins for other liabilities” line on the Liabilities page of the balance sheet:	$ 0

I have relied upon anticipated cash flows from currently owned assets (including variations in cash flows according to economic scenarios), listings, summaries, and other supporting data prepared under the direction of William J. Cashion, Vice President & Chief Actuary, as certified in the attached statement. In other respects, my examination included such review of the actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary.

In my opinion the reserves and related actuarial items identified above:

- are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;
- are based on actuarial assumptions which produce reserves at least as great as those called for in any contract provision as to reserve basis and method, and are in accordance with all other contract provisions;
- meet the requirements of the valuation law and regulations of the Commonwealth of Pennsylvania
- are computed on the basis of assumptions consistent with those used in computing the corresponding items in the Annual Statement of the preceding year-end; and
- include provision for all reserves and related actuarial items which ought to be established.

The reserves and related actuarial items, when considered in light of the assets held by the Corporation with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the Corporation.

The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated from time to time by the Actuarial Standards Board, which standards form the basis of this statement of opinion. I certify that the items above have been determined appropriately; however, because future events frequently do not occur exactly as expected, there are usually differences between expected and actual results.

This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion. The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis of asset adequacy portion of this opinion should be viewed recognizing that the Corporation's future experience may not follow all the assumptions used in the analysis.

Respectfully submitted,

PricewaterhouseCoopers LLP

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Highmark Inc. (the "Corporation") are presented on the basis of accounting practices prescribed by the Pennsylvania Insurance Department (the "Department"). The Department recognizes only statutory accounting practices prescribed or permitted by the Commonwealth of Pennsylvania for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Pennsylvania insurance law and regulations. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by Pennsylvania. The Pennsylvania Insurance Commissioner (the "Commissioner") has the right to permit other specific practices that deviate from prescribed practices.

For the years ended December 31, 2008 and 2007, there were no differences between NAIC SAP and practices prescribed or permitted by Pennsylvania.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

The Corporation uses the following accounting policies:

- Short-term investments include Class 1 and exempt money market accounts, and securities with a maturity of less than one year but greater than 90 days at the date of purchase. Cash equivalents include securities with a maturity of 90 days or less at the date of purchase. Securities are stated at amortized cost. Class 1 and exempt money market accounts are stated at fair value.

- Bonds not backed by other loans are carried at amortized cost using the effective interest method.

- Loan-backed securities are stated at amortized cost or the lower of amortized cost or market value, contingent upon NAIC designation assigned by the Securities Valuation Office ("SVO"). The retrospective adjustment method is used to value all loan-backed securities.

- Common stocks are carried at market value except investments in stocks of subsidiaries and affiliates in which the Corporation has an interest of 10% or more which are carried on the equity basis.

- Stocks of insurance subsidiaries and affiliates are recorded based on the statutory equity of the respective entity as reported in its financial statements. Investments in stocks of non-insurance subsidiaries and affiliates are recorded based on the equity of the respective entity in its financial statements prepared in accordance with generally accepted accounting principles ("GAAP"). Holding companies are valued based on their respective directly and indirectly owned subsidiaries and affiliates in accordance with SSAP No. 97. Unaudited subsidiary and affiliate investments are nonadmitted. Dividends from subsidiaries and affiliates are recorded as investment income when declared.

- Preferred stocks are recorded at the lower of cost or market value, contingent upon NAIC designation assigned by the SVO.

- Other invested assets consist primarily of investments in partnerships accounted for under the audited GAAP equity method and non-rated surplus notes carried at the lower of cost or statement factor value determined in accordance with SSAP No. 41.

- Real estate occupied by the Corporation is recorded at book value, which is the actual cost of the property, plus capitalized improvements, less depreciation.

- The Corporation capitalizes individual items with a cost greater than $500 and software with a cost greater than $1,500.

- Electronic data processing ("EDP") equipment and software are carried at cost less accumulated depreciation and amortization. Maintenance, repairs and minor improvements are expensed as incurred. Depreciation and amortization are computed under the straight-line method over the estimated useful life of three years. Non-operating EDP equipment and software are nonadmitted.

- All derivatives are stated at fair value.

- Realized capital gains and losses on the sale of investments are determined using the specific identification method.

- Uncollected premiums are carried at net realizable value. All uncollected premiums over 90 days are nonadmitted.

NOTES TO FINANCIAL STATEMENTS

- Pharmacy rebates receivable is an actuarial estimate based on prescriptions filled and terms of rebate contracts for the most recent three months. For prior months, the Corporation records the actual amounts that have been invoiced or confirmed in writing with the pharmaceutical companies.

- Claims unpaid include claims reported and adjudicated but unpaid as well as an estimate of incurred but not reported claims. The liability for claims incurred but not reported is an actuarial estimate based on historical claims paid data, modified for current conditions and coverage changes. The methods to determine the estimate of incurred but not reported claims use past experience adjusted for current trends. The methods and assumptions are continually reviewed and any resulting adjustments are included in claims incurred in the period determined. Corresponding administrative costs to process unreported claims are estimated and accrued.

- A premium deficiency reserve ("PDR") is established when future claims expense and related maintenance costs are expected to exceed future subscriber premiums on contracts in force for a given line of business or product grouping within a contract period. Anticipated investment income is not considered in the PDR calculation.

- The Corporation's revenue consists of premium income from underwritten business. Premiums are generally billed in advance of the contractual coverage periods and included in premium income as they are earned during the coverage period. Premiums that have been received prior to the service period are reported as premiums received in advance. The Corporation estimates retrospective premium adjustments to premium income by examining each group's activity and applying the appropriate contractual limitations.

- The administrative fees associated with uninsured administrative arrangements and third party administration fees are recorded as a reduction to general administrative expenses and recognized in the period in which related services are performed.

- The Corporation is subject to federal income taxes, although it remains exempt from state and local taxes. However, the Corporation voluntarily pays real estate taxes on its properties. Deferred tax assets and liabilities are determined based on differences between the financial reporting and tax basis of assets and liabilities and are measured using tax rates and laws that are expected to be in effect when the difference is reversed. Net deferred tax assets are admitted to the extent that they are expected to reverse and be realized within one year. Uncertain tax positions are assessed in accordance with SSAP No. 5 criteria as required by SSAP No. 10.

8. Derivative Instruments

A.-E. Interest Rate Swap Agreements

The Corporation is party to multiple interest rate swap agreements which meet the criteria of fair value hedges with two highly rated, major U.S. financial institutions (the "counterparties") pursuant to which the Corporation synthetically converted $125,000,000 of its fixed rate Senior Notes to variable notes through maturity. The Corporation received $19,892 in interest from the counterparties and paid $1,544,531 in interest to the counterparties in 2008 and 2007, respectively, which was recorded in net investment income earned in the statements of revenue and expenses. E. Income Tax Carryforwards and Carrybacks

The Corporation had no net operating loss or tax credit carryforwards at December 31, 2008.

The Tax Reform Act of 1986 (the "Act") made all Blue Cross and Blue Shield organizations subject to federal income tax as of January 1, 1987. The Act included certain tax benefits designed to ease the burden of the organizations' transition to taxable status. One transition benefit was the step-up in tax basis of all assets at January 1, 1987 to fair market value. The assets of the relevant organizations include subscriber and provider relationships, as well as assembled workforce. The Corporation and the Internal Revenue Service (the "IRS") have been unable to reach agreement as to the value of and consequent deductions associated with these intangible assets. As a result, the Corporation filed suit against the IRS in the United States Court of Claims. The expected tax benefit associated with this litigation and related deductions were recognized in 2008 by a reduction to the tax exposure reserve.

F. Consolidation of Federal Return

The Corporation is included in a consolidated federal income tax return with all of its 80% or more owned corporate subsidiaries. A listing of these entities is provided in Schedule Y. The Corporation has a written agreement, approved by the Corporation's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity which is a party to the consolidation. The agreement generally provides for the settlement of the consolidated federal tax liability as if each subsidiary filed a separate income tax return. Federal income tax benefits or losses are allocated to the entities incurring such benefits or losses to the extent they are used to reduce the consolidated federal income tax liability.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. Defined Benefit Plans

The Corporation sponsors a non-contributory defined benefit pension plan (the “pension plan”) which covers all eligible employees of the Corporation meeting certain age and service requirements and certain employees of the Corporation’s participating subsidiaries and affiliates. The Corporation’s policy is to fund its pension plan according to the limits specified by the Employee Retirement Income Security Act of 1974, as amended. From time to time, the Corporation may contribute additional amounts to the pension plan as it deems appropriate, subject to applicable funding limitations. In 2008, an additional contribution of $200,000,000 was made to the pension plan. During 2009, the Corporation expects to contribute $55,000,000 to the pension plan for the 2009 plan year depending on completion of the 2009 actuarial valuation.

The Corporation also sponsors a defined benefit other postretirement plan (the “other postretirement plan”) which provides various postretirement health and life insurance benefits to the Corporation’s retirees and certain retirees of the Corporation’s participating subsidiaries and affiliates. The Corporation’s contributions for other postretirement coverage vary based on age and length of service at retirement. The Corporation uses a Voluntary Employees’ Beneficiary Association (“VEBA”) trust to fund its other postretirement plan. VEBA funding contributions are determined using entry age actuarial cost as the acceptable actuarial method. From time to time, the Corporation may contribute additional amounts to the other postretirement plan as it deems appropriate, subject to applicable funding limitations. In 2008, an additional contribution of $15,000,000 was made to the other postretirement plan. The Corporation expects to make a voluntary contribution between $15,000,000 and $30,000,000 to the other postretirement plan for the 2009 plan year depending upon completion of the 2009 actuarial valuation.

The Corporation uses a measurement date of December 31, 2008 for its plans.

The Corporation recognized an additional minimum pension plan liability of $12,445,211 in 2008. The Corporation did not recognize an additional minimum pension plan liability in 2007.

For measurement purposes at December 31, 2008, the assumed annual rate of increase in the per capita cost of covered health care benefits for the other postretirement plan was 9.00% in 2009, gradually decreasing to 5.00% by 2016.

Assumed health care cost trend rates have a significant effect on the amounts reported for the other postretirement plan. A one percentage point change in assumed health care cost trend rates would have had the following effects at December 31, 2008:

	One-Percentage-Point	
	Increase	Decrease
Effect on total of service and interest cost components	$500,000	$(500,000)
Effect on postretirement benefit obligation	$8,500,000	$(8,100,000)

The asset allocation for the pension plan at December 31, 2008 and 2007, by asset category, and the targeted asset allocation, presented as a percentage of total plan assets, were as follows:

	2008	2007	Target Allocation
Equity	30.80%	55.78%	56%
Debt	41.20%	37.70%	40%
Cash and cash equivalents	28.00%	6.52%	4%
Total	100.00%	100.00%	100%

The primary investment objective for the assets of the pension plan is to achieve maximum rates of return commensurate with safety of principal, given the asset mix, credit quality and diversification guidelines and restrictions approved by the Investment Committee of the Board of Directors of the Corporation. The pension plan asset allocation is reviewed quarterly to determine whether the portfolio mix is within an acceptable range of the target allocation. Target asset allocations are based on asset and liability studies with the goal to enhance the expected return of the pension portfolio while maintaining acceptable levels of risk.

The asset allocation for the other postretirement plan at December 31, 2008 and 2007, by asset category, was as follows:

The primary investment objective for the assets of the other postretirement plan is to achieve maximum rates of return commensurate with safety of principal, credit quality, diversification and adequate liquidity. Excluding cash and cash equivalents, the investment goal is to outperform an unmanaged hybrid index, 65% of which is the Morgan Stanley Capital International All Country World Index and 35% of which is the Barclays Capital U.S. Aggregate Bond Index. The performance of the portfolio is reviewed periodically to determine the most effective structure of the assets and investment managers to achieve these objectives.

NOTES TO FINANCIAL STATEMENTS

The Corporation also sponsors unfunded nonqualified supplemental retirement plans (the "supplemental retirement plans") covering certain eligible employees. The weighted-average assumptions used in the measurement of the supplemental retirement plans benefit obligation and net periodic benefit obligation and net period benefit cost are consistent with the assumptions used in the measurement of pension plan benefits. At December 31, 2008 and 2007, the Corporation's supplemental retirement plans' accumulated benefit obligation exceeded the net supplemental retirement plan liability recognized in the statements of assets, liabilities, capital and surplus and, accordingly, the Corporation recorded additional minimum pension liabilities of $12,392,544 and $10,504,009, respectively, in general expenses due or accrued in the statements of assets, liabilities, capital and surplus.

B. Defined Contribution Plans

The Corporation sponsors a defined contribution savings plan (the "savings plan") covering substantially all of its employees and employees of certain participating subsidiaries. The savings plan allows participating employees to contribute a percentage of their annual salaries, subject to current federal limitations. Employee contributions are matched by the Corporation at various percentages up to 6%. The Corporation's contributions to the savings plan were $11,533,017 and $10,558,639 in 2008 and 2007, respectively.

The Corporation also sponsors deferred compensation plans for certain eligible employees. Participating employees may contribute a certain amount of their annual compensation to the plans. The Corporation matches a portion of those deferrals and pays interest on those deferrals at various rates. The Corporation made matching contributions to the deferred compensation plans of $358,066 and $341,008 in 2008 and 2007, respectively. Deferred compensation plan liabilities of $33,973,406 and $45,152,096 were recognized in other liabilities and accrued expenses in the statements of assets, liabilities, capital and surplus at December 31, 2008 and 2007, respectively.

C. Multiemployer Plans

D. Consolidated/Holding Company Plans

E. Postemployment Benefits and Compensated Absences

All obligations are accrued in accordance with SSAP No. 11.

F. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

The Corporation made a one-time election to prospectively recognize the impact of the Medicare Modernization Act at December 31, 2004. The Corporation recorded a payout of $32,326 to CMS for 2006 subsidy overpayment. The Corporation's gross benefit payments for 2007 included subsidy receipts of $59,421.

13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

NOTES TO FINANCIAL STATEMENTS

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming From Lawsuits

There were no extra contractual or bad faith claims paid in 2008. In 2007, the Corporation paid one claim of $35,000 in settlement of bad faith denial claims.

E. All Other Contingencies

Because the Corporation is not eligible to participate in a Pennsylvania-sponsored guarantee fund it has established and funded a trust in order to meet a licensing requirement of BCBSA. The statement value of the contributed assets in the trust was $277,353,984 and $261,314,685 at December 31, 2008 and 2007, respectively.

The Corporation was a defendant in a class action lawsuit brought by physicians, state medical societies and other professional organizations against BCBSA and various Blue Cross and Blue Shield licensees ("Blue Plans") alleging incorrect payments to physicians for services to subscribers. In addition, the Corporation, Keystone Health Plan Central, Inc. ("KHPC") and Capital Blue Cross were defendants in a class action lawsuit brought on behalf of providers in the KHPC network alleging conspiracy among the defendants to underpay providers. The Corporation settled these lawsuits and amounts due under the settlements were paid in November 2008. These settlements did not impact the financial position of the Corporation as provision for the settlements previously had been made in the Corporation's financial statements.

The Corporation is a defendant in a class action lawsuit alleging violation of the Pennsylvania Nonprofit Corporation Law and breach of subscriber contracts by reason of its maintenance of allegedly "excessive" surplus. The Corporation believes, based on consultation with legal counsel, that it has meritorious defenses to the claims in this matter, but it is unable to predict the outcome of the matter or to reasonably estimate a range of possible loss. An unfavorable outcome in this matter could have a material adverse impact on the financial position of the Corporation.

In December 1996, a petition for review was filed in the Commonwealth Court of Pennsylvania (the "Commonwealth Court") challenging a November 1996 order of the Commissioner related to the consolidation of Medical Services Association of Pennsylvania (d/b/a Pennsylvania Blue Shield) and Veritus Inc. (d/b/a Blue Cross of Western Pennsylvania). The Commonwealth Court transferred the matter to the Department, and the Commissioner dismissed the petition in May 2006. A petition for review of the Commissioner's decision was dismissed by the Commonwealth Court in November 2007, and a subsequent petition for allowance of appeal to the Pennsylvania Supreme Court was dismissed in January 2009.

The Corporation is subject to various other contingencies, including legal and compliance actions and proceedings that arise in the ordinary course of its business. Due to the complex nature of these actions and proceedings, the timing of the ultimate resolution of these matters is uncertain. In the opinion of management, based on consultation with legal counsel, adequate provision has been made in the financial statements for any potential liability related to these matters, and the amount of ultimate liability is not expected to materially affect the financial position of the Corporation.

For the years ended December 31, 2008 and 2007, the Corporation processed claims of $10,352,808,023 and $14,939,631,606, respectively, on behalf of the Medicare Part A and Part B programs. NOTES TO FINANCIAL STATEMENTS

In March 2007, the Corporation and Independence Blue Cross entered into an agreement to consolidate the two companies to form a new Pennsylvania nonprofit corporation. The parties subsequently filed applications with the Department for approval of the consolidation and of the change of control of their Pennsylvania-domiciled insurance subsidiaries. On January 21, 2009, the parties withdrew their applications and announced that they were no longer pursuing the consolidation.

In July 2007, UPMC repaid the entire outstanding principal amount of the $163,600,000 Allegheny County Industrial Development Authority Hospital Revenue Drawdown Note held by the Corporation (together with accrued interest thereon).

In June 2007, West Penn Allegheny Health System repaid the $117,500,000 principal balance of an original $125,000,000 note held by the Corporation (together with accrued interest thereon), and a related general reserve on long-term other invested assets of $35,000,000 was reversed.

The Commissioner has determined that an appropriate sufficient operating surplus range for the Corporation is 550% - 750% of the health RBC ratio or the Department's consolidated risk factor ratio, whichever is lower. As long as the Corporation operates above the 550% ratio, the Corporation is not permitted to include a risk and contingency factor in its filed premium rates. If the Corporation's ratio exceeds 750%, it will be required to justify its surplus level and could be required to submit a plan to bring its surplus within the designated appropriate sufficient operating surplus range. At December 31, 2008 and 2007, the Corporation's health RBC ratios were within the appropriate sufficient operating surplus range of the Department.

In February 2005, the Corporation entered into a six-year Community Health Reinvestment Agreement with the Department. The agreement established an annual Community Health Reinvestment ("CHR") commitment for the Corporation based on certain Pennsylvania direct written health premiums and quantified the Corporation's minimum social mission commitment at approximately $110,000,000 and $100,000,000 for 2008 and 2007, respectively. Sixty percent of the CHR is directed by Pennsylvania and is dedicated to programs for uninsured persons of low income. Forty percent of the CHR is directed by the Corporation, subject to approval by the Department, and dedicated to permitted community health reinvestment endeavors. The Pennsylvania-directed net expenses were $60,711,125 and $59,327,928 in 2008 and 2007, respectively, and were reported in other expense in the statements of revenue and expenses. The Corporation-directed CHR obligation was reported in the statements of revenue and expenses as incurred.

D. Uncollectible Receivable Balances

At December 31, 2008 and 2007, the Corporation had admitted assets of $401,126,043 and $310,553,340, respectively, in amounts receivable for insured and uninsured plans. The Corporation routinely assesses the collectability of these receivables. Based upon the Corporation's experience, less than 1% of the balance may become uncollectible, and the potential loss is not material to the Corporation's financial condition.

G. Hybrid Securities

Hybrid securities are securities having certain characteristics of both debt and equity. The primary characteristics considered to determine statutory classification as a hybrid include maturity, ability of the issuer to defer payment of principal and/or interest, and the security's payment priority in relation to the issuer's other credit obligations.

The book/adjusted carrying values of hybrid securities held by the Corporation at December 31, 2008 and 2007 were as follows:

H. Subprime Mortgage Related Risk Exposure

The Corporation's exposure to subprime residential mortgage-backed securities is comprised of investments within the fixed income investment portfolio that contain securities collateralized by mortgages or home equity loans that have characteristics of subprime loans, including deteriorating credit ratings, credit scores or delinquency rates. At December 31, 2008 and 2007, the book/adjusted carrying value of these investments was $6,724,094 and $1,242,785, respectively, which represented less than 1% of the Corporation's total fixed income portfolio. An other-than-temporary impairment of $575,340 and $46,686 related to these securities was recorded in the statements of assets, liabilities, capital and surplus at December 31, 2008 and 2007, respectively. The Corporation performs ongoing analysis of cash flows and other stress variables and manages its subprime risk exposure by maintaining high credit quality investments and by limiting the Corporation's holdings in these types of investments.

The Corporation had no direct exposure to investments in subprime mortgage loans at December 31, 2008 and 2007.

22. Reinsurance

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

1. None of the non-affiliated reinsurers listed in Schedule S was owned in excess of 10% or controlled directly or indirectly by the Corporation or any representative, officer, trustee or director of the Corporation.

2. None of the policies issued by the Corporation has been reinsured with a company chartered in a country other than the United States that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business.

NOTES TO FINANCIAL STATEMENTS

Section 2 – Ceded Reinsurance Report – Part A

1. The Corporation has no reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than nonpayment of premium or other similar credit matters.

2. The Corporation has no reinsurance agreements in effect such that the amount of losses paid or accrued through December 31, 2008 may result in a payment to the reinsurer of amounts that, in the aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsurance policies.

Section 3 – Ceded Reinsurance Report – Part B

1. The estimated amount of the aggregate reduction in surplus from termination of all reinsurance agreements by either the Corporation or reinsurers at December 31, 2008 would not have had a material impact on the Corporation's statutory surplus.

2. No new agreements have been executed and no existing agreements have been amended since January 1, 2008 to include policies or contracts that were in force or which had existing reserves established by the Corporation as of the effective date of the agreement.

B. Uncollectible Reinsurance

None.

C. Commutation of Ceded Reinsurance

None.

23. Retrospectively Rated Contracts & Contracts Subject to Redetermination

The Corporation estimates retrospective premium adjustments to earned premium for its group health insurance business by examining each group's activity and applying the appropriate contractual limitations. For the year ended December 31, 2008, the Corporation's net premiums written that were subject to retrospective rating features were $302,545,425, which represented 5.24% of total net premiums written. At December 31, 2007, the Corporation's net premiums written that were subject to retrospective rating features were $328,337,769, which represented 6.31% of total premiums written.

24. Change in Incurred Claims and Claim Adjustment Expenses

Reserves for incurred claims and claim adjustment expenses attributable to insured events of prior years decreased $22,299,052 and $1,092,653, respectively, during 2008 and by $23,951,770 and $1,004,053, respectively, during 2007 as a result of re-estimation of unpaid claims and claim adjustment expenses. The re-estimation decrease was generally the result of ongoing analysis of recent loss development trends. Original estimates are adjusted as additional information becomes known regarding individual claims. Favorable prior year claim development on retrospectively rated policies does not significantly impact surplus because such policies are subject to premium adjustments.

ANNUAL STATEMENT FOR THE YEAR 2007 OF THE Highmark Inc.

Statement of Actuarial Opinion

Statement of Actuarial Opinion
Highmark Inc.

I, Mark F. St. George, am a Director with the firm of PricewaterhouseCoopers LLP. I am a Fellow of the Society of Actuaries and also a Member of the American Academy of Actuaries. I have been retained by Highmark Inc. (the Corporation) to render this opinion. I meet the American Academy of Actuaries Qualification Standards for rendering this opinion and am familiar with the valuation requirements applicable to life and health insurance companies.

I have examined the actuarial assumptions and actuarial methods used in determining reserves and related actuarial items listed below, as shown in the Annual Statement of the Corporation, as prepared for filing with the state regulatory officials as of December 31, 2007. Those reserves and related actuarial items which have been subjected to asset adequacy analysis are tabulated as shown in the following table of Reserves and Liabilities.

A. Claims Unpaid (Reported and Unreported):	$ 413,420,339
B. Accrued medical incentive pool and bonus payments:	$ 9,200,765
C. Unpaid claims adjustment expenses:	$ 10,694,922
D. Other policy and contract reserves:	$ 118,559,433
E. Experience rated refunds:	$ 0
F. Any actuarial liabilities included in “Aggregate write-ins for other liabilities” line on the Liabilities page of the balance sheet:	$ 0

I have relied upon anticipated cash flows from currently owned assets (including variations in cash flows according to economic scenarios), listings, summaries, and other supporting data prepared under the direction of William J. Cashion, Vice President & Chief Actuary, as certified in the attached statement. In other respects, my examination included such review of the actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary.

In my opinion the reserves and related actuarial items identified above:

- are computed in accordance with presently accepted actuarial standards consistently applied and are fairly stated, in accordance with sound actuarial principles;
- are based on actuarial assumptions which produce reserves at least as great as those calledfor in any contract provision as to reserve basis and method, and are in accordance with allother contract provisions;
- meet the requirements of the valuation law and regulations of the Commonwealth of Pennsylvania;
- are computed on the basis of assumptions consistent with those used in computing the corresponding items in the Annual Statement of the preceding year-end; and
- include provision for all reserves and related actuarial items which ought to be established.

The reserves and related actuarial items, when considered in light of the assets held by the Corporation with respect to such reserves and related actuarial items including, but not limited to, the investment earnings on such assets, and the considerations anticipated to be received and retained under such policies and contracts, make adequate provision, according to presently accepted actuarial standards of practice, for the anticipated cash flows required by the contractual obligations and related expenses of the Corporation.

The actuarial methods, considerations and analyses used in forming my opinion conform to the appropriate Standards of Practice as promulgated from time to time by the Actuarial Standards Board, which standards form the basis of this statement of opinion. I certify that the items above have been determined appropriately; however, because future events frequently do not occur exactly as expected, there are usually differences between expected and actual results.

This opinion is updated annually as required by statute. To the best of my knowledge, there have been no material changes from the applicable date of the annual statement to the date of the rendering of this opinion which should be considered in reviewing this opinion.

The impact of unanticipated events subsequent to the date of this opinion is beyond the scope of this opinion. The analysis of asset adequacy portion of this opinion should be viewed recognizing that the Corporation's future experience may not follow all the assumptions used in the analysis.

Statement of Actuarial Opinion

Respectfully submitted,

PricewaterhouseCoopers LLP

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Highmark Inc. (the Corporation) are presented on the basis of accounting practices prescribed by the Pennsylvania Insurance Department (the Department). The Department recognizes only statutory accounting practices prescribed or permitted by the Commonwealth of Pennsylvania for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Pennsylvania insurance law and regulations. The National Association of Insurance Commissioners' (NAIC) Statutory Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by Pennsylvania. The Pennsylvania Insurance Commissioner (the Commissioner) has the right to permit other specific practices that deviate from prescribed practices.

For the years ended December 31, 2007 and 2006, there were no differences between NAIC SAP and practices prescribed or permitted by Pennsylvania that impacted the Corporation’s surplus.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of admitted assets and liabilities. It also requires the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from estimates derived.

C. Accounting Policies

The Corporation uses the following accounting policies:

- Short-term investments include Class 1 and exempt money market accounts, and securities with a maturity of less than one year but greater than 90 days at the date of purchase. Cash equivalents include securities with a maturity of 90 days or less at the date of purchase. Securities are stated at amortized cost. Class 1 and exempt money market accounts are stated at fair value.

- Bonds not backed by other loans are carried at amortized cost using the effective interest method.

- Common stocks are carried at market value except investments in stocks of uncombined subsidiaries and affiliates in which the Corporation has an interest of 20% or more which are carried on the equity basis.

- Preferred stocks are recorded at cost or the lower of cost or market value, contingent upon NAIC designation assigned by the Securities Valuation Office (SVO). Certain hybrid securities that have characteristics of both debt and equity are reported as preferred securities.

- Loan-backed securities are stated at amortized cost or the lower of amortized cost or market value, contingent upon NAIC designation assigned by the SVO. The retrospective adjustment method is used to value all loan-backed securities.

- Stocks of insurance subsidiaries and affiliates are recorded based on the statutory equity of the respective entity as reported in its financial statements. Investments in stocks of non-insurance subsidiaries and affiliates are recorded based on the equity of the respective entity in its financial statements prepared in accordance with generally accepted accounting principles (GAAP). Unaudited subsidiary and affiliate investments are nonadmitted in accordance with Statement of Statutory Accounting Principle (SSAP) No. 97. Dividends from subsidiaries and affiliates are recorded as investment income when declared.

- The Corporation has minor ownership interests in limited partnerships. The Corporation carries these interests based on the underlying audited GAAP equity of the investee.

- The Corporation carries its non-rated surplus notes at the lower of amortized cost or statement factor value determined in accordance with SSAP No. 41, contingent upon NAIC designation assigned by the SVO.

- Real estate occupied by the Corporation is recorded at book value, which is the actual cost of the property, plus capitalized improvements, less depreciation. The Corporation capitalizes individual items with a cost greater than $500 and software with a cost greater than $1,500. The Corporation has not modified its capitalization policy from the prior year.

- All derivatives are stated at fair value.

NOTES TO FINANCIAL STATEMENTS

- A premium deficiency reserve (PDR) is established when future claims expense and related maintenance costs are expected to exceed future subscriber premiums of contracts in force for a given line of business or product grouping within a contract period. Anticipated investment income is not considered in the PDR calculation. A PDR is recorded net of amortization and included in aggregate policy reserves in the statutory statements of admitted assets, liabilities and surplus and in underwriting expenses on the statutory statements of revenue and expenses.

- Claims unpaid include claims reported and adjudicated, but unpaid, as well as an estimate of incurred but not reported claims. The liability for claims incurred but not reported is an actuarial estimate based on historical claims paid data, modified for current conditions and coverage changes. The methods to determine the estimate of incurred but not reported claims use past experience adjusted for current trends. The methods and assumptions are continually reviewed and any resulting adjustments are included in claims incurred in the period determined. Corresponding administrative costs to process unreported claims are estimated and accrued.

- The Corporation's operating revenue consists of net premium income from underwritten business. The Corporation recognizes premiums ratably over the terms of the related insurance policy or contract period. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. The Corporation is not at risk for uninsured activity and, accordingly, records the revenue, claims expense and administrative expenses on a net basis within general administrative expenses. Third party administration fees are earned and recognized at the time services under the applicable contract are performed.

- Realized capital gains and losses on the sale of investments are determined using the specific identification method and are included in the statutory statements of revenues and expenses.

B. Amounts excluded from statutory surplus

There were no amounts excluded from the Corporation's statutory surplus for investment income at December 31, 2007 or 2006.

8. Derivative Instruments

A-F. Interest Rate Swap Agreements

The Corporation is party to multiple interest rate swap agreements, which meet the criteria of fair value hedges, with two highly rated, major U.S. financial institutions (the counterparties) pursuant to which the Corporation synthetically converted $125,000,000 of its fixed rate Senior Notes to variable notes through maturity. (Refer to Note 11A – Senior Notes.) The interest rate swap agreements expire August 2013 and provide for the Corporation and the counterparties to exchange, on a semi-annual basis, the difference between the fixed rate (6.80%) and the variable rate interest amounts calculated by reference to the agreed-upon notional principal amount of $125,000,000. During 2007 and 2006, the Corporation paid $1,544,531 and $327,948, respectively, in interest to the counterparties. This amount reduced net investment income earned in the statutory statements of revenue and expenses. At December 31, 2007 and 2006, the interest rate swaps were reflected at their fair values on the statements of liabilities, capital and surplus, with a corresponding adjustment in borrowed money.

Until March 2006, the Corporation was party to an interest rate swap agreement, which met the criteria of a cash flow hedge, with a highly rated, major U.S. financial institution (the counterparty) in order to limit its exposure to cash flow risks associated with the interest payments on the outstanding principal of a variable rate credit facility of $125,000,000. During 2006, the Corporation paid $355,469 to the counterparty for settlements under the interest rate swap agreement. This amount reduced net investment income earned in the statutory statement of revenue and expenses.

NOTES TO FINANCIAL STATEMENTS

As a result of its interest rate swap agreements, the Corporation is subject to interest rate risk and default risk. Only cash flows related to the differential in the fixed interest rates and the variable interest rates as applied to the notional amounts of the interest rate swaps are subject to interest rate risk over the term of the swap agreements. The notional amounts do not represent the amounts at risk; rather, they are used only as the basis for calculating the amounts due under the interest rate swap agreements.

E. Income Tax Carryforwards and Carrybacks

The Corporation had no net operating loss or tax credit carryforwards at December 31, 2007.

The Tax Reform Act of 1986 (the Act) made all Blue Cross and Blue Shield organizations subject to federal income tax as of January 1, 1987. The Act included certain tax benefits designed to ease the burden of the organizations' transition to taxable status. One transition benefit was a step-up in the tax basis of all assets at January 1, 1987 to fair market value. The assets of the relevant organizations include subscriber and provider relationships, as well as assembled workforce. The Internal Revenue Service (IRS) and the Corporation have been unable to agree on the value and subsequent deductions associated with these intangible assets of the Corporation. As a result, the Corporation has filed suit in the U.S. Court of Claims. Because of the uncertainty surrounding this issue, the Corporation has not recorded any income tax benefits related to these deductions. An unfavorable result in this matter could require significant future cash expenditures by the Corporation but should have minimal, if any, impact on the statutory financial statements, as the amount of the tax-effected disallowance and interest have been fully reserved. The resolution of this matter may entail efforts which could extend over several years.

F. Consolidation of Federal Return

The Corporation is included in the consolidated federal income tax return with all of its 80% or more owned corporate subsidiaries. A listing of these entities is provided in Schedule Y. The Corporation has a written agreement, approved by the Corporation's Board of Directors, which sets forth the manner in which the total combined federal income tax is allocated to each entity which is a party to the consolidation. The agreement generally settles the consolidated federal tax liability as if each subsidiary filed a separate income tax return. Federal income tax benefits or losses are allocated to the entities incurring such benefits or losses to the extent they were used to reduce the consolidated federal income tax liability.

10. Information Concerning Parent, Subsidiaries and Affiliates

A, B, C & F. Transactions Related to Subsidiaries, Controlled and Affiliated Entities (SCAs)

The surplus notes bear interest at a rate equal to two percentage points above the yield on five-year U.S. Treasury notes as of December 1 of each year. Interest is payable by the applicable subsidiary only from unassigned surplus of the subsidiary and if the subsidiary's risk-based capital (RBC) is 300% or greater, or an amount in excess of any equivalent measure is achieved if RBC is no longer an acceptable measurement standard. Each subsidiary must redeem its note on or before December 9, 2033. In September 2007, interest accrued through June 30, 2007 of $3,629,971 and $1,813,129 was paid by HM Life and Highmark Casualty, respectively. The replacement surplus note bears interest at an annual rate of 6.50%; provided that interest is not payable until FPH and First Priority Life Insurance Company (FPLIC), a for-profit corporation, 40% of the stock of which also is held by the Corporation, achieve a combined health RBC of at least 700% for six consecutive calendar quarters. No payments may be made, and interest may not be accrued, on the surplus note without the approval of the Department. FPH must redeem its note on or before July 1, 2015. In May 2007, the Department approved repayment of a $12,000,000 surplus note payable to the Corporation by HealthGuard of Lancaster, Inc. (HealthGuard), a wholly owned subsidiary. The surplus note was repaid in May 2007. In June 2007, the Department approved HealthGuard's request to voluntarily surrender its Certificate of Authority to operate an HMO in Pennsylvania. The Certificate of Authority was surrendered effective August 1, 2007. In connection with the surrender, the Corporation agreed to be responsible for any legitimate HMO claims or other unsatisfied liabilities of HealthGuard, commencing on the surrender effective date. The Corporation is not aware of the existence of any such claims or liabilities. On August 30, 2007, the Corporation received a capital dividend of $9,000,000 from HealthGuard.

The Corporation's policy is to fund its pension plan according to the limits specified by the Employee Retirement Income Security Act of 1974, as amended. From time to time, the Corporation may contribute additional amounts to the pension plan as it deems appropriate, subject to funding limitations. During 2008, the Corporation expects to contribute $43,000,000 to the pension plan for the 2008 plan year depending on completion of the 2008 actuarial valuation.

The Corporation also sponsors a defined benefit other postretirement plan (other postretirement plan) which provides various postretirement health and life insurance benefits to the Corporation's retirees and certain retirees of the Corporation's participating subsidiaries.

Other postretirement benefit costs are recognized in the statutory financial statements during the employees' credited service period. Corporation contributions for other postretirement coverage vary based on age and length of service at retirement. The Corporation uses a Voluntary Employees' Benefit Association (VEBA) trust to fund the other postretirement plan. VEBA funding contributions are determined using Entry Age Actuarial Cost as the acceptable actuarial method. The Corporation also expects to make a voluntary contribution of $19,800,000 to the VEBA for the 2008 plan year depending upon completion of the 2008 actuarial valuation.

The Corporation uses a measurement date of December 31, 2007 for its plans.

There were no additional minimum liabilities in the pension plan or other postretirement plan in 2007 or 2006.

For measurement purposes at December 31, 2007, the assumed annual rate of increase in the per capita cost of covered health care benefits for the other postretirement plan was 8.75% in 2008, gradually decreasing to 5.00% by 2014. For measurement purposes at December 31, 2006, the assumed annual rate of increase in the per capita cost of covered health care benefits was 9.00% in 2007, gradually decreasing to 5.00% by 2015.

Assumed health care cost trend rates have a significant effect on the amounts reported for the other postretirement plan. A one-percentage-point change in assumed health care cost trend rates would have had the following effects at December 31, 2007:

	One-Percentage Point	
	Increase	Decrease
Effect on total of service and interest cost components	$1,900,000	$(1,700,000)
Effect on postretirement benefit obligation	$14,400,000	$(13,000,000)

Estimated benefit payments, which reflect expected future service, as appropriate, are expected to be paid in the following years:

	Pension Benefits	Other Postretirement Benefits
2008	$23,400,000	$7,400,000
2009	26,200,000	8,200,000

2011	33,700,000	9,700,000
2012	38,300,000	10,300,000
2013-2017	280,000,000	63,000,000

The asset allocation for the pension plan at December 31, 2007 and 2006, by asset category, and the targeted asset allocation, presented as a percentage of total plan assets, were as follows:

	2007	2006	Target Allocation
Equity	55.78%	55.10%	56%
Debt	37.70%	37.20%	40%
Cash and cash equivalents	6.52%	7.70%	4%
Total	100.00%	100.00%	100%

The primary investment objective for the assets of the pension plan is to achieve maximum rates of return commensurate with safety of principal, given the asset mix, credit quality and diversification guidelines and restrictions approved by the Investment Committee of the Board of Directors of the Corporation. The pension plan asset allocation is reviewed quarterly to determine whether the portfolio mix is within an acceptable range of the target allocation. Target asset allocations are based on asset and liability studies with the goal to enhance the expected return of the pension portfolio while maintaining acceptable levels of risk.

The asset allocation for the other postretirement plan at December 31, 2007 and 2006, by asset category, was as follows:

	2007	2006
Balanced fund	90.71%	65.04%
Cash and cash equivalents	9.29%	34.96%
Total	100.00%	100.00%

The primary investment objective for the assets of the other postretirement plan is to achieve maximum rates of return commensurate with safety of principal, credit quality, diversification and adequate liquidity. Excluding cash and cash equivalents, the investment goal is to outperform an unmanaged hybrid index, 60% of which is the Standard & Poor's 500 Composite Stock Price Index and 40% of which is the Lehman Brothers Aggregate Bond Index. The performance of the portfolio is reviewed periodically to determine the most effective structure of the assets and investment managers to achieve these objectives.

NOTES TO FINANCIAL STATEMENTS

The Corporation also sponsors unfunded nonqualified supplemental retirement plans (the supplemental retirement plans) covering certain eligible employees. The weighted-average assumptions used in the measurement of the supplemental retirement plans benefit obligation and net periodic benefit obligation and net period benefit cost are consistent with the assumptions used in the measurement of pension plan benefits. As a result of the Corporation's supplemental retirement plans' accumulated benefit obligation exceeding the net supplemental retirement plan liability recognized on the statutory statements of liabilities and surplus at December 31, 2007 and 2006, the Corporation recorded additional minimum pension liabilities of $10,504,009 and $6,957,952, respectively, in general expenses due or accrued in the statutory statements of liabilities and surplus. The change in additional minimum pension liabilities related to the supplemental retirement plans of $301,926 in 2007 and $3,368,814 in 2006 was included in unassigned funds.

B. Defined Contribution Plans

The Corporation sponsors a defined contribution savings plan (the savings plan) covering substantially all of its employees and employees of certain participating subsidiaries. The savings plan allows participating employees to contribute a percentage of their annual salaries, subject to current IRS limitations. Employee contributions are matched by the Corporation at various percentages. The Corporation's contributions to the savings plan were $10,558,639 and $9,982,256 in 2007 and 2006, respectively.

The Corporation also sponsors deferred compensation plans for certain eligible employees. Participating employees may contribute a certain amount of their annual compensation to the plans. The Corporation matches a portion of those deferrals and pays interest on those deferrals at various rates. The Corporation made matching contributions to the deferred compensation plans of $341,008 and $307,508 in 2007 and 2006, respectively. Deferred compensation plan liabilities of $45,152,096 and $41,285,518 were recognized in other liabilities and accrued expenses in the statutory statements of liabilities and surplus at December 31, 2007 and 2006, respectively.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming From Lawsuits

In 2007, the Corporation paid one claim of $35,000 in settlement of attorney fees and bad faith denial claims. There were no extra contractual or bad faith claims paid in 2006.

E. All Other Contingencies

Because the Corporation is not eligible to participate in a Pennsylvania-sponsored guarantee fund, it has established and funded a trust in the amount of its claims liability in order to meet a licensing requirement of BCBSA. The admitted value of the contributed assets in the trust was $261,314,685 and $267,409,296 at December 31, 2007 and 2006, respectively.

The Corporation is a defendant in a class action lawsuit brought by physicians, state medical societies and other professional organizations against BCBSA and various Blue Cross and Blue Shield licensees (Blue Plans) alleging incorrect payments to physicians for services to subscribers. In addition, the Corporation, Keystone Health Plan Central, Inc. (KHPC) and Capital Blue Cross are defendants in a class action lawsuit brought on behalf of providers in the KHPC network alleging conspiracy among the defendants to underpay providers. The Corporation has reached settlements in these lawsuits, subject to approval by the courts. Provision for these settlements was made in the Corporation's financial statements. The Corporation is a defendant in a similar class action lawsuit brought on behalf of chiropractors and other professional providers against BCBSA and several Blue Plans. The Corporation believes, based on consultation with legal counsel, that it has meritorious defenses to the claims in this matter but is unable to predict the outcome of the matter, or to reasonably estimate a range of possible loss. An unfavorable outcome in this matter is not likely to have a material adverse impact on the financial position of the Corporation.

The Corporation is a defendant in a class action lawsuit alleging violation of the Pennsylvania Nonprofit Corporation Law and breach of subscriber contracts by maintenance of "excessive" surplus. The Corporation believes, based on consultation with legal counsel, that it has meritorious defenses to the claims in this matter but is unable to predict the outcome of the matter, or to reasonably estimate a range of possible loss. An unfavorable outcome in this matter could have a material adverse impact on the financial position of the Corporation.

In December 1996, a petition for review was filed in the Commonwealth Court, challenging a November 1996 order of the Commissioner (the 1996 Order) related to the consolidation of Medical Services Association of Pennsylvania (d/b/a Pennsylvania Blue Shield) and Veritus Inc. (d/b/a Blue Cross of Western Pennsylvania). The court transferred the matter to the Department. In May 2006, the Commissioner issued an adjudication and order (the 2006 Order) dismissing the petition. Robert B. Sklaroff, M.D., filed a petition for review in the Commonwealth Court, which the court dismissed in November 2007, affirming the 1996 Order and the 2006 Order. A petition for allowance of appeal from this decision has been filed in the Pennsylvania Supreme Court, and is pending before the court. Capital Blue Cross and Capital Advantage Insurance Company (Capital Blue Cross) also filed a petition for review of the 2006 Order with the Commonwealth Court. In November 2007, Capital Blue Cross's petition was quashed. Capital Blue Cross did not seek review of this action. The Corporation believes, based on consultation with legal counsel, that it has meritorious defenses to the claims in this matter but is unable to predict the outcome of the matter, or to reasonably estimate a range of possible loss. An unfavorable outcome in this matter could have a material adverse impact on the financial position of the Corporation.

The Corporation is subject to various other contingencies, including legal and compliance actions and proceedings that arise in the ordinary course of its business. Due to the complex nature of these actions and proceedings, the timing of the ultimate resolution of these matters is uncertain. In the opinion of management, based on consultation with legal counsel, adequate provision has been made in the financial statements for the liability related to these matters, and the amount of ultimate liability with respect to these contingencies is not expected to materially affect the financial position of the Corporation.

B. Troubled Debt Restructuring: Debtors

C. Other Disclosures

On March 28, 2007, the Corporation's Board of Directors and the Board of Directors of Independence Blue Cross (IBC) approved a consolidation of the two companies to form a new Pennsylvania nonprofit corporation (the resulting corporation). The consolidation was approved by the Corporation's corporate members on April 26, 2007. Various other conditions precedent to the consolidation, including approval by the Department of the change in control of certain subsidiaries of the Corporation and IBC, remain to be satisfied, and a closing date has not been set. If the consolidation is consummated, the resulting corporation will succeed to all assets and liabilities of the Corporation and IBC.

In July 2007, UPMC repaid the entire outstanding principal amount of the $163,600,000 Allegheny County Industrial Development Authority Hospital Revenue Drawdown Note held by the Corporation (together with accrued interest thereon).

In June 2007, West Penn Allegheny Health System repaid the $117,500,000 principal balance of an original $125,000,000 note held by the Corporation (together with accrued interest thereon), and a related general reserve on long-term other invested assets of $35,000,000 was reversed.

In February 2006, the Corporation entered into agreements with IBC pursuant to which the Corporation agreed to transfer ownership of HSR to a holding company that would be owned 50% by the Corporation and 50% by AmeriHealth Inc. (AmeriHealth), a wholly owned subsidiary of IBC. AmeriHealth was simultaneously to contribute to the holding company a company that, like HSR, offers Medicare Part D prescription drug coverage in Pennsylvania and West Virginia. The Corporation and IBC terminated these agreements effective July 31, 2007.

The Commissioner has issued a Determination and Order that an appropriate sufficient operating surplus range for the Corporation is 550% - 750% of the health RBC ratio or the Department's consolidated risk factor ratio, whichever is lower. As long as the Corporation operates above the 550% ratio, the Corporation will not be permitted to include a risk and contingency factor in its filed premium rates. If the Corporation's ratio exceeds 750%, it will be required to justify its surplus level and could be required to submit a plan to bring its surplus within the designated appropriate sufficient operating surplus range. At December 31, 2007 and 2006, the Corporation's health RBC ratios were within the appropriate sufficient operating surplus range of the Department.

The Corporation is party to a six-year Community Health Reinvestment Agreement with the Department, which established the Corporation's annual Community Health Reinvestment (CHR) commitment based on certain Pennsylvania direct written health premiums and quantified the Corporation's minimum social mission commitment at approximately $100,000,000 and $95,000,000 for 2007 and 2006, respectively. Sixty percent of the CHR is directed by Pennsylvania and dedicated to programs for uninsured persons of low income. Forty percent of the CHR is directed by the Corporation, subject to approval by the Department, and dedicated to permitted community endeavors. The Corporation recorded a Pennsylvania-directed net obligation of $59,327,928 and $62,028,255 in other expense at December 31, 2007 and 2006, respectively. These amounts were calculated based on certain historical Pennsylvania direct written health premiums and were net of the estimated amounts of certain credits. The estimated receivable for such credits was $724,883 and $200,042 at December 31, 2007 and 2006, respectively.

D. Uncollectible Receivable Balances

At December 31, 2007 and 2006, the Corporation had admitted assets of $310,553,340 and $322,897,634, respectively, in accounts receivable for insured and uninsured plans. The Corporation routinely assesses the collectability of these receivables. Based upon the Corporation's experience, less than 1% of the balance may become uncollectible, and the potential loss is not material to the Corporation's financial condition.

I. Subprime Mortgage Related Risk Exposure

The Corporation's exposure to subprime residential mortgage-backed securities is comprised of investments within the fixed income investment portfolio that contain securities collateralized by mortgages that have characteristics of subprime loans. The book adjusted/carrying value of these investments was $1,242,785 at December 31, 2007, which represented less than 1% of the Corporation's total fixed income portfolio. The average credit rating on all of these securities was "AAA" at December 31, 2007. An other-than-temporary impairment of $46,686 related to these securities was recorded in the statutory statement of assets at December 31, 2007. The Corporation performs ongoing analysis of cash flows and other stress variables and manages its subprime risk exposure by maintaining high credit quality investments and by limiting the Corporation's holdings in these types of instruments.

The Corporation had no direct exposure through investments in subprime mortgage loans at December 31, 2007.

2. None of the policies issued by the Corporation has been reinsured with a company chartered in a country other than the United States that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business.

Section 3 – Ceded Reinsurance Report – Part B

1. The estimated amount of the aggregate reduction in surplus from termination of all reinsurance agreements by either the Corporation or reinsurers at December 31, 2007 would not have had a material impact on the Corporation's statutory surplus.

2. No new agreements have been executed and no existing agreements have been amended since January 1, 2007 to include policies or contracts that were in force or which had existing reserves established by the Corporation as of the effective date of the agreement.

B. Uncollectible Reinsurance

24. Change in Incurred Claims and Claim Adjustment Expenses

Reserves for incurred claims and claim adjustment expenses attributable to insured events of prior years increased during 2007 by $23,951,770 and $1,004,053, respectively, and decreased during 2006 by $108,606,860 and $7,075,655, respectively, as a result of re-estimation of unpaid claims and claim adjustment expenses. The re-estimation changes were generally the result of ongoing analyses of recent loss development trends. Original estimates are adjusted as additional information becomes known regarding individual claims.
