What is pet insurance?

Pet insurance is similar to health insurance for humans. With the rising costs of veterinarian care, this may be the right time to review the different types of policies available for your pet.

Pet insurance offers different types of coverage:

- Wellness check ups
 - Diagnostic treatments
 - Dental care
 - Surgery
 - Prescription medications
 - Spaying and neutering
-

Where can I buy pet insurance?

You may want to check with your veterinarian or homeowner insurance company. The monthly costs may be based on the breed of your pet, age of your pet, where you live and the coverage you select.
