Honorable Trinidad Navarro Commissioner of Insurance Delaware Department of Insurance Rodney Building 841 Silver Lake Boulevard Dover, Delaware 19904

Dear Commissioner;

In compliance with instructions and pursuant to statutory provisions contained in Exam Authority No. 17.005, dated April 3, 2017, an examination has been made of the affairs, financial condition and management of

Highmark BCBSD Inc.

hereinafter referred to as the Company or BCBSD and incorporated under the laws of the State of Delaware as a non-stock company with its home office located at 800 Delaware Avenue, Wilmington, Delaware 19801. The examination was conducted at the administrative office of the Company located at 120 Fifth Avenue, Suite 924, Pittsburgh, Pennsylvania 15222. The report of examination thereon is respectfully submitted.

SCOPE OF EXAMINATION

The Delaware Department of Insurance (Department) performed a risk-focused financial examination of the Company. The last examination was conducted as of December 31, 2012. This examination covered the period of January 1, 2013 through December 31, 2016 and encompasses a general review of transactions during the period, the Company's business policies and practices, as well as management and relevant corporate matters, with a determination of the

financial condition of the Company as of December 31, 2016. Transactions subsequent to the examination date were reviewed where deemed necessary.

The examination of the Company was performed as part of the multi-state coordinated examination of Highmark Inc. (Highmark), a group of health organizations, as of December 31, 2016. The Pennsylvania Insurance Department (PID) was the lead state. The examination was conducted concurrently with that of its Delaware domiciled subsidiary, Highmark BCBSD Inc. To the fullest extent, the efforts, resources, project material and findings were coordinated and made available to all examination participants.

We conducted our examination in accordance with the *National Association of Insurance Commissioners* (NAIC) *Financial Condition Examiners Handbook* (Handbook) and generally accepted statutory insurance examination standards consistent with the Insurance Code and Regulations of the State of Delaware. The NAIC Handbook requires that we plan and perform the examination to evaluate the financial condition, assess corporate governance, identify current and prospective risks of the company and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively.

All accounts and activities of the company were considered in accordance with the riskfocused examination process. This may include assessing significant estimates made by management and evaluating management's compliance with Statutory Accounting Principles. The examination does not attest to the fair presentation of the financial statements included herein. If, during the course of the examination an adjustment is identified, the impact of such adjustment will be documented separately following the Company's financial statements.

This examination report includes significant findings of fact, along with general information about the insurer and its financial condition. There may be other items identified during the examination that, due to their nature, are not included within the examination report but separately communicated to other regulators and/or the Company.

During the course of this examination, consideration was given to work performed by the Company's external accounting firm, PricewaterhouseCoopers, LLC (PwC). Certain auditor work papers for their 2016 audit have been incorporated into the work papers of the examiners and have been utilized in determining the scope, areas of emphasis in conducting the examination and in the area of risk mitigation and substantive testing.

SUMMARY OF SIGNIFICANT FINDINGS

There were no significant findings or material changes in financial statements as a result of this examination.

COMPLIANCE WITH PRIOR EXAMINATION RECOMMENDATIONS

Management Comments

<u>Prior Exam Recommendation:</u> As noted in the previous examination management comments, it is recommended the Company utilize procedures which comply with 12 *Del. C.* § 1197 Other Escheated Property.

Current Exam Finding: The Company has complied with this recommendation.

COMPANY HISTORY

The Company was originally incorporated, by the filing of a Certificate of Incorporation with the Secretary of State on August 16, 1935 as a private non-profit, nonstock corporation and is operated as a health service corporation in the State of Delaware. The Company, as a licensee of the Blue Cross and Blue Shield Association (BCBSA),

underwrites various indemnity and managed care health insurance products as well as Medicare supplemental, dental and vision products. The Company also provides Administrative Services Contracts (ASC) to self-funded plans.

On December 30, 2011 the Delaware Commissioner approved an affiliation between Highmark Inc. and the Company (Affiliation Approval) imposing 49 conditions on the affiliation that, among other things, were intended to preserve the Company's surplus and reserves and make it possible for the Company to disaffiliate if necessary. Effective January 1, 2012 Highmark became the sole member of the Company, which thereupon changed its name to Highmark BCBSD Inc. As the sole member of the Company, Highmark has the authority to elect the Company's Board of Directors. The Company is a separate legal entity and is not liable for Highmark's obligations. In accordance with its articles of incorporation, in the event of dissolution of the Company, the Directors shall cause any remaining assets of the Company to be distributed to a foundation created pursuant to Delaware law or to a federally tax-exempt organization.

On April 26, 2013 the Delaware Commissioner approved the indirect acquisition of the control of the Company by the Ultimate Parent Entity (UPE) if and when the PID approved the Highmark/West Penn Allegheney Health System (WPAHS) affiliation. That approval modified 5 of the 49 original conditions. The April 29, 2013 closing of the Highmark/WPAHS transaction resulted in the Company's ultimate controlling parent, UPE, later re-named Highmark Health.

Federal Affordable Care Act

The Federal Affordable Care Act (ACA) enacted significant reforms to various aspects of the U.S. health insurance industry, including the establishment of federally-facilitated or state-based exchanges which provide individuals and small businesses access to affordable and

quality health insurance. The Corporation participates in the Delaware health insurance exchange.

The ACA established three premium stabilization programs effective January 1, 2014. These risk spreading programs are applicable to certain commercial medical insurance products. In the aggregate, the Corporation's commercial medical insurance products subject to the premium stabilization programs represented approximately 45% and 43% of the total premiums for the years ended December 31, 2016 and 2015 respectively. These programs, commonly referred to as the 3Rs include a permanent risk adjustment program, a transitional reinsurance program and a temporary risk corridor program designed to more evenly spread the financial risk borne by issuers and to mitigate the risk that issuers would have mispriced products. The transitional reinsurance and risk corridor programs are available for years 2014 through 2016.

As of December 31, 2016, the Company recorded amounts recoverable under the ACA reinsurance of \$10.4 million and a payable of \$0.6 million for the ACA risk adjustment program. The Company also recorded a risk corridor receivable of \$56 thousand for the 2014 benefit year risk corridor based on the Centers for Medicare & Medicaid Services' (CMS) announcement that it had the ability to pay 3.3% of the amounts owed for the 2014 benefit year. As of December 31, 2016, the Company received \$146 thousand of the \$202 thousand of the risk corridor funds owed from CMS. A risk corridor receivable was not recorded for the amounts owed for the remainder of the 2014 benefit year, nor for amounts owed with respect to the 2015 and 2016 benefit years as risk corridor payments are not reasonably assured of collection since they are subject to the availability of risk corridor funds. The Company

anticipates calculating the risk corridor amount pursuant to CMS' methodology and filing the required information in 2017 for the 2016 benefit year.

On January 1, 2017, the Company was not subject to an annual fee under Section 9010 of the ACA. The annual fee was allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1st of the year the fee is due. The collection of the assessment has been suspended for 2017 and therefore the Company did not reflect an amount in aggregate write-ins for special surplus in the statements of assets, liabilities and capital and surplus as of December 31, 2016.

Capitalization

In accordance with Article III, Section 3.1 of its Amended Bylaws which were effective December 16, 2015, the Company shall be a membership corporation, operated as a not-for-profit organization, and shall not have the authority to issue capital stock.

Dividends

The Company's organization structure does not allow for dividends to be paid.

The Pennsylvania Insurance Department retained the services of Taylor-Walker Consulting LLC (Taylor-Walker), to conduct an independent review of the Company's loss and LAE reserves as of December 31, 2016. The Taylor-Walker analysis was performed using a risk- focused approach according to the guidelines contained in the NAIC Handbook. Their review does not address the collectability of reinsurance recoverable.

The conclusions set forth in Taylor-Walker report are based on information provided by the Company, including the 2016 Annual Statements and the related 2016 Statement of Actuarial Opinion with underlying actuarial work papers.

The Department appointed INS Consultants, Inc. (INS) to review the lead state's actuarial report. No material exceptions were noted during INS' actuarial review of the Company's reserves. The examination determined the Company's Claims Unpaid and Unpaid Claims Adjustments Expenses and the Aggregate Health Policy Reserves were properly stated without material exception as of December 31, 2016.

<u>Note 4:</u>

Unpaid Claims Adjustment Expenses

\$2,562,258

The amount is established to cover expenses associated with the claims unpaid liability for the Company's insured business. INS reviewed the lead state's actuarial report provided by the Company for the unpaid claims adjustment expenses. The unpaid claims adjustment expense of \$2,562,258 is 3.47% of the unpaid claims liability of \$73,915,314. The 3.47% factor falls within the accepted industry range of 2%-10%. INS also performed a trend analysis which

indicated a reasonable trend over the examination period. Consequently, INS concluded that the unpaid claims adjustment expenses were fairly stated.

Note 5: Aggregate Health Policy Reserves

\$4,048,278

This reserve is primarily for unearned premiums relating to Federal Employee Program (FEP). INS concluded that the Aggregate Health Policy Reserves were fairly stated.

The Company participates in the Blue Cross and Blue Shield FEP, which is one of the plans offered through the Federal Employee Health Benefits Program (FEHBP), administered by the Office of Personnel Management (OPM). Claims incurred on behalf of FEP are reported as revenues during the period in which the claims are incurred. The related administrative fees are recognized as revenues as they are earned during the contract period. The Blue Cross and Blue Shield Association (BCBSA) contracts directly with OPM to administer the FEP and subcontracts with CFMI, GHMSI and BCBSD. BCBSA also provides information to the Company for inclusion in the accompanying consolidated financial statements. The BCBSA contract and the Company's subcontract are experience rated and could result in losses to the Company under certain circumstances. OPM conducts periodic audits to verify compliance with FEHBP requirements. OPM holds certain reserves on behalf of the Company to provide funding, if necessary, for excess claims costs, subject to certain limitations. The Company records its allocable share of amounts held by OPM as an asset, with an equivalent amount recorded as unearned revenues.
