

Delaware QHP Application

Submission Requirements Plan Year 2021

For certification of a plan as a QHP effective beginning in 2021, Issuers must submit a complete QHP application for all plans they intend to offer on the Delaware Marketplace, or offer as a certified SADP off the Marketplace. As a Plan Management Partnership State, Delaware DOI will conduct, in concert with CMS, a full review of all current and new Issuers applying for QHP certification in Delaware. **Please note that certification eligibility only applies to QHPs that are to be offered on Delaware's Marketplace/SHOP and to SADPs seeking certification for both On- and Off-Exchange. SERFF Binder submissions are NOT applicable to QHP medical plans to be offered exclusively OFF Marketplace.**

The Table below provides a list of templates and supporting documentation to support Issuer applications for certification of qualified health plans (QHPs) and stand-alone dental plans (SADPs) for Plan Year 2021. The requirements are grouped into two main categories: 1) Templates and Supporting Documentation requirements developed by CMS; and 2) Templates and Supporting Documentation requirements that have been developed and implemented by DOI to support its QHP review process. All templates (both CMS and Delaware-specific) will be available to Issuers through SERFF. Issuers may also review the CMS QHP Application instructions, templates, supporting documentation and justification documents located at <http://cciio.cms.gov/programs/exchanges/qhp.html>.

The Table indicates which type of template/supporting document is applicable for each type of QHP Application, (i.e., those applicable for QHP medical submissions and SADP submissions). It also identifies under which SERFF 'Filing tab' the Issuer is required to submit it (i.e., Form Filing, Binder, and/or Rate Filing). In some cases, Issuers are required to submit the same template in multiple 'tabs'. In these cases, it is the Issuer's responsibility to ensure that all applicable tabs contain the most current version of the completed template.

The Table also indicates the applicability of each template and supporting documentation, as follows:

- **Required:** template or supporting document must be included in the Issuer's initial QHP Application
- **Not Required:** template or supporting document is not to be included in the Issuer's QHP Application
- **Required Under Special Circumstances:** template or supporting documentation is must be included in the Issuer's initial QHP Application if the plans included in the submission meet certain criteria, for example, EHB substitution or unique plan design.
- **If Applicable:** template or supporting document must be included in the Issuer's initial QHP Application to provide justification for failing to meet QHP certification criteria, such as inadequate drug class/count or cost-share arrangements that exceed established limits.
- **If Requested:** template or supporting document must be submitted by the Issuer, following the initial QHP Application, following a formal request by DOI or CMS/CCIIO Plan Management QHP Review team.

For Plan Year 2021, both CMS and DOI have, in some areas, made significant changes to the type and content of template and supporting documentation required for QHP certification application. Issuers are strongly urged to review each template and supporting document requirement carefully, and reach out to CMS or DOI with questions prior to submission. In most cases, but not all, a template has been provided to standardize the data collection across Issuers. In those instances where a template is not provided, Issuers are instructed to submit the information, as instructed, and include the Issuer's name, market (Individual/SHOP), and HIOS Plan IDs that the documentation supports.

PLEASE NOTE: The DOI instructs all Issuers to utilize the CMS Data Integrity Tool and all applicable CMS QHP Application Tools prior to submission of CMS data collection templates through SERFF and to submit full, clean and accurate information, as required/requested in its QHP Application. This includes both the initial submission and any subsequent submission of templates throughout the Review Cycle. Issuers are also instructed to ensure that templates and supporting documentation are submitted within the appropriate SERFF tab (i.e., Binder, Form Filing, Rate Filing), as indicated. Lastly, Issuers are instructed to notify the DOI, by email, of any re-submission of templates or supporting documentation prior to submission, whether or not the resubmission is requested by the CMS or DOI Plan Management team.

Issuers must:

- utilize the CMS Data Integrity Tool and all applicable CMS QHP Application Tools prior to submission of CMS data collection templates through SERFF;
- submit full, clean and accurate information, as required/requested in its QHP Application. (This includes both the initial submission and any subsequent submission of templates throughout the Review Cycle.)
- ensure that templates and supporting documentation are submitted within the appropriate SERFF tab (i.e., Binder, Form Filing, Rate Filing), as indicated.
- notify the DOI, by email, of any re-submission of templates or supporting documentation prior to submission, whether or not the resubmission is requested by the CMS or DOI Plan Management team.

Delaware QHP Application Submission Requirements PY2021

Template / Supporting Document	SERFF Filing Submission Tab (Form, Binder, Rate)	QHPs & SADPs offered On or Both On/Off Marketplace		SADPs offered Off Marketplace Only
