

The following companies may offer **NONSTANDARD AUTOMOBILE INSURANCE** in the State of Delaware. These risks are higher and considered non-standard based on factors like accidents, violations, lapse in coverage, and inexperienced drivers. The Department strongly suggests you obtain quotes from several companies, as premium rates may vary. You may also want to contact a local insurance producer (aka agent) or agency to assist you in finding coverage. If you are unable to secure coverage through the voluntary automobile insurance market, an insurance producer (agent) can write your risk through the Delaware Automobile Insurance Plan.
