There may be other items identified during the examination that, due to their nature, are not included within the examination report but separately communicated to other regulators and/or the Company.

During the course of this examination, consideration was given to work performed by the Company's external accounting firm KPMG, LLP (KPMG). Certain auditor work papers of the 2022 KPMG audit of the Company have been incorporated into the work papers of the examiners and have been utilized in determining the scope, areas of emphasis in conducting the examination and in the area of risk mitigation and substantive testing.
